

The diagram illustrates a sequence of 16 boxes, each containing a 2x2 grid of squares. The boxes are arranged in three rows: the top row has 6 boxes, the middle row has 6 boxes, and the bottom row has 4 boxes. A blue line connects the 4th box of the middle row to the 4th box of the bottom row. The boxes contain various combinations of black and white squares, representing different states of a 2x2 grid.
